Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussed clarifying the 112/2nd problems in claim 1 as noted in the office action mailed 01/12/2007 and it was proposed to amend the claim so that it reads " wherein each lever has a first and second end, wherein each lever is attached on the first end to a support plate displaceable together with the backrest, and on the other end is adapted to attach to a floor unit of a motor vehicle" and to delete the unclear language of claim 1. it was also agreed that the limitations added to claim 1 rendered the claim patentably distinct over the Blasin patent. The proposed Examiner's Amendment was agreed upon and entered as such..
